

PROPERTY TAX APPEAL BOARD'S DECISION

APPELLANT: Chuck & Patti Del Grande
DOCKET NO.: 06-21430.001-R-1
PARCEL NO.: 14-30-403-087-0000

The parties of record before the Property Tax Appeal Board are Chuck & Patti Del Grande, the appellants, by attorney Brian Maher with the law firm of Weis, DuBrock & Doody in Chicago and the Cook County Board of Review.

The subject property consists of a seven-year-old, two-story, single-family dwelling of masonry construction containing 3,978 square feet of living area and located in Lake View Township, Cook County. Features of the residence include three and one-half bathrooms, a full-finished basement, air-conditioning and a fireplace.

The appellants, through counsel, submitted evidence before the Property Tax Appeal Board arguing unequal treatment in the assessment process of the improvement as the basis of the appeal. In support of this claim, the appellants submitted assessment data and descriptive information on four properties suggested as comparable to the subject. Based on the appellants' documents, the four suggested comparables consist of two-story, single-family dwellings of masonry or frame construction located within the subject's neighborhood. The improvements range in size from 3,941 to 4,794 square feet of living area and range in age from seven to nine years. The comparables contain from one to four full bathrooms, a finished or unfinished basement, air-conditioning, one or two fireplace and a two-car or three-car garage. The improvement assessments range from \$38.09 to \$39.22 per square foot of living area. Based on the evidence submitted, the appellants requested a reduction in the subject's improvement assessment.

(Continued on Next Page)

Based on the facts and exhibits presented, the Property Tax Appeal Board hereby finds a reduction in the assessment of the property as established by the Cook County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$ 42,242
IMPR.: \$ 156,158
TOTAL: \$ 198,400

Subject only to the State multiplier as applicable.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the subject's total assessment of \$225,071. The subject's improvement assessment is \$182,829 or \$45.96 per square foot of living area. In support of the assessment the board submitted property characteristic printouts and descriptive data on two properties suggested as comparable to the subject. The suggested comparables are improved with three-story, two-year-old, single-family dwellings of masonry construction with the same neighborhood code as the subject. The improvements contain 3,146 and 3,166 square feet of living area. The comparables contain three and one-half bathrooms, a partial-finished basement, air-conditioning, two fireplaces and a two-car garage. The improvement assessments are \$62.26 and \$61.47 per square foot of living area, respectively. Based on the evidence presented, the board of review requested confirmation of the subject's assessment.

After reviewing the record and considering the evidence, the Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of this appeal. The appellants' argument was unequal treatment in the assessment process. The Illinois Supreme Court has held that taxpayers who object to an assessment on the basis of lack of uniformity bear the burden of proving the disparity of assessment valuations by clear and convincing evidence. Kankakee County Board of Review V. Property Tax Appeal Board, 131 Ill.2d 1 (1989). The evidence must demonstrate a consistent pattern of assessment inequities within the assessment jurisdiction. After an analysis of the assessment data, the Board finds the appellants have overcome this burden.

The Board finds the appellants' comparables one, two and three to be the most similar properties to the subject in the record. These three properties are similar to the subject in improvement size, amenities, age and design and have improvement assessments ranging from \$38.09 to \$39.22 per square foot of living area. The subject's per square foot improvement assessment of \$45.96 falls above the range established by these properties. The remaining comparables are accorded less weight because they differ from the subject in improvement size. After considering adjustments and the differences in both parties' suggested comparables when compared to the subject, the Board finds the subject's per square foot improvement assessment is not supported by the most similar properties contained in the record.

As a result of this analysis, the Property Tax Appeal Board finds the appellants have adequately demonstrated that the subject dwelling was inequitably assessed by clear and convincing evidence and a reduction is warranted.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code.
